

My wife and I first starting coming to Indian Hills several years ago to visit friends. We enjoyed the community so much that we decided to purchase a house of our own in late summer of 2019. Since moving in, we've spent a lot of time at Indian Hills enjoying the lake and the community. I volunteered to serve on the Communication Committee to help improve the sharing of important information about the lake. I am running for the Board of Directors to volunteer my time and energy to ensure the long-term success and viability of this very special place.
