

I am a retired police officer of 31 years, currently sit on a board of directors myself & another small business owner developed 3 years ago to enhance tourism/commerce in Bourbon.

Previous service on the ILPOA board includes serving 7 of 9 elected years. Accomplishments included, building the guard shack, installing security cameras, employing our own security personnel, creating a policy manual and instituting a drinking water testing program.

Of late, this association has made improvements consistently and I hope to be part of the future progress focusing on roads & the lake as per the wishes of the majority.
